

ZELIE

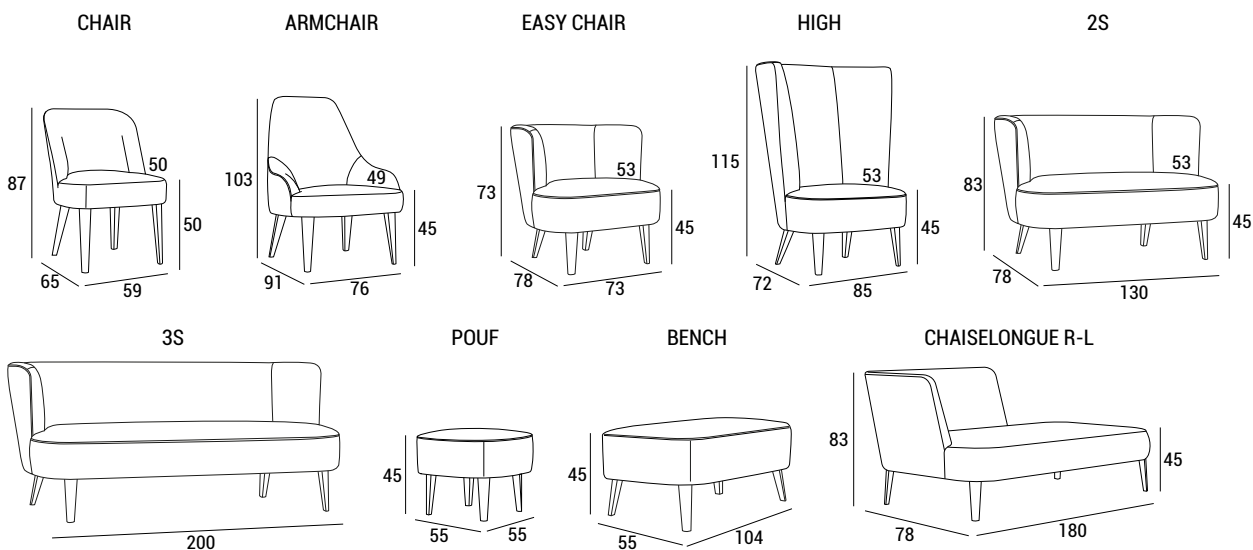

Zelie is a family of sinuous and discreet contract seating, which offers a range of seating, from the simplest chair to the sofa through an armchair with a high back, devoted to isolation and privacy. The concept of a family of chairs for the hotel industry makes the collection very usable for furnishing different areas of the project recalling the same style, and fulfilling the need for different types of seating, chair for the breakfast room, chair for the bedroom, armchair and sofas for the waiting areas. The wooden legs lift it off the ground facilitating cleaning operations, and they can be chosen in a wide range of essences.

- 1 - dacron® fiber 100 gr;
- 2 - high resilience polyurethane foam of different densities;
- 3 - structural frame in plywood, non-structural parts in composite wood;
- 4 - beechwood legs.
