

ARKET Collection

INTENDED USE: The new Arket table collection is made using basic geometrics - radii and linear sections intersect to achieve distinctly intuitive shapes. Intended for indoor or outdoor use, suitable for use in the most varied hospitality and contract environments.

MATERIALS UTILIZED: The aluminium bases have three or four spokes with adjustable feet; the aluminium stems come in sections with three or four surfaces; the table tops are made of steel with Marine MDF core. The tables are painted in a solid color.

FINISHES: Slight differences in shades between different surfaces are possible. Furthermore, in the case of products purchased at different times, despite the use of durable materials for use in outdoor environments, natural-climatic factors can cause slight variations in shades.

CLEANING: Metal surfaces in steel and aluminum should be cleaned with a soft, damp cloth soaked in hot water. For stubborn stains, mild liquid soap can be diluted in water in moderation. Always dry after cleaning with a soft cloth. Do not use creams or pastes to clean metals, do not use chlorine, bleach or aggressive detergents. Do not use abrasive pastes or sponges that can scratch metal surfaces.

WARNING: This sheet complies with the provisions of the law and of April 10, 1991 n.126 "Rules for consumer information" and with the Decree of February 8, 1997 n. 101 "Implementing Regulation". This article has also passed a series of tests corresponding to the UNI EN 16139 AC: 2013 standard.
