Subject: **Policies in respect of our natural environment**

Sedex srl boasts 40 years of experience in the field of seating and tables production, enabling the realization of innovative products that take into account both human and environmental safety. The company resists the use of polluting materials and encourages the employment of the most appreciated recycled ones.

Sedex srl wooden articles are produced in accordance with European regulations in force regarding formaldehyde emissions from wood-based products. Sedex uses mainly wooden raw materials coming from FSC chain of custody certified materials.

The packaging is scaled in order to optimize storage and transport requirements, and it is mainly made by recycled and recyclable materials. The optimization of packaging in terms of volume and weight delivers a lower consumption of energy in many forms, helping the environment and a consequent saving of transport costs.

Sedex is regularly checked by authorities and is in line with rules and regulations concerning employment, staff training and insurance.

We are at your disposal for any further information should you require.

Kind regards

Dr. Filippo Carli
Export Manager
