

ENVIRONMENTAL POLICY

Domingo Salotti srl: policies in the respect of our natural environment

Dear Sirs,

Since 1973 Domingo Salotti has been careful about launching on the market products complying with the environmental laws and operates in respect of the rules and regulations concerning environment, health and work safely, and it promotes every act aimed at the prevention and minimization of environmental pollution, industrial injuries and professional pathologies. We resist the use of polluting materials and encourage the use of recycled ones.

Our wooden articles are produced in accordance with the European Regulations in force regarding formaldehyde emissions from wood-based products.

Domingo Salotti uses wooden raw materials coming exclusively from certified materials with reference to the environment respect (see attached documents), products containing wood that comes from forests managed according to rigorous environmental, social and economic standards.

Domingo Salotti complies with all the National and International regulations concerning environment and commits to manage rationally raw materials.

Wood paints and glues are non-toxic and low formaldehyde release and in the complete respect of "Reach Regulation".

Our packaging is scaled in order to optimize storage and transport requirements, and it is made of 80% recycled and recyclable materials. The optimization of packaging in terms of volume and weight delivers a lower consumption of energy in many forms, helping the environment and a consequent saving on transport costs.

Domingo Salotti guarantees its workers health and safety on all levels, providing all the protection means useful to avoid and manage risks, living its employees (both internal and external) the right instructions and adapting working environments, tools and working methods to progresses in technology.

Within the company first-aid activities are foreseen, as well as fire prevention plans, in order to protect the workers in case of sudden or serious danger.

Workers safety control is guaranteed by measures that are developed according to the national laws.

Filippo Antonelli
General Manager
