

**NARDI**  
YOUR OUTDOOR LIVING

A close-up photograph of a hand with pink nail polish dripping water over a wooden deck. The water is captured mid-fall, creating a soft, blurred effect. The background is a calm body of water reflecting the sky. The overall mood is serene and refreshing.

**NARDI**  
YOUR OUTDOOR LIVING

Our identity

**Design. Relaxing outdoors.  
The desire to be together  
and enjoy your leisure time.  
Nardi is an ambassador  
of Italian style in the world.**

Our identity

**For more than 30 years, we have been producing resin furniture for outdoor use. Ideal for residential and contract environments, our furniture is the result of in-depth research based on design and quality.**

Quality

# We can only do things perfectly

**Quality is an integral part of our entire production line, from selecting raw materials to monitoring the production chain and customer services.**

Quality

### Creativity

Cutting-edge design

### Prototyping

Creating models

### Moulds

Producing steel moulds

### Inspections and testing

In-company and external lab tests

### Quality control

Functionality and safety checks

Raw materials

# A unique resin

**Polypropylene is the main material used to make our products: it is light, long-lasting, recyclable, non-toxic and antistatic, resistant to weather conditions and salty environments.**

Respect for the environment

# 100% recyclable

**Our polypropylene is in a pure form, free from other materials. This particular feature allows it to be separated according to its colour and then re-processed, making our products totally recyclable.**

## Respect for the environment

### **Our entire production chain is strongly focused on sustainability:**

#### 1 - Energy

Part of the electricity used to power our plants is sourced from solar. Our latest production plant respects the highest environmental standards.

**from January 2023 energy comes from renewable sources**

#### 2 - The Environment

The water we use is not contaminated by our production process. We do not emit polluting gases or smoke into the atmosphere.

#### 3 - Waste

All plastic production waste is reintroduced into our production cycle.

#### 4 – Packaging

The cardboard boxes used for packaging contain more than 75% recycled fibres.

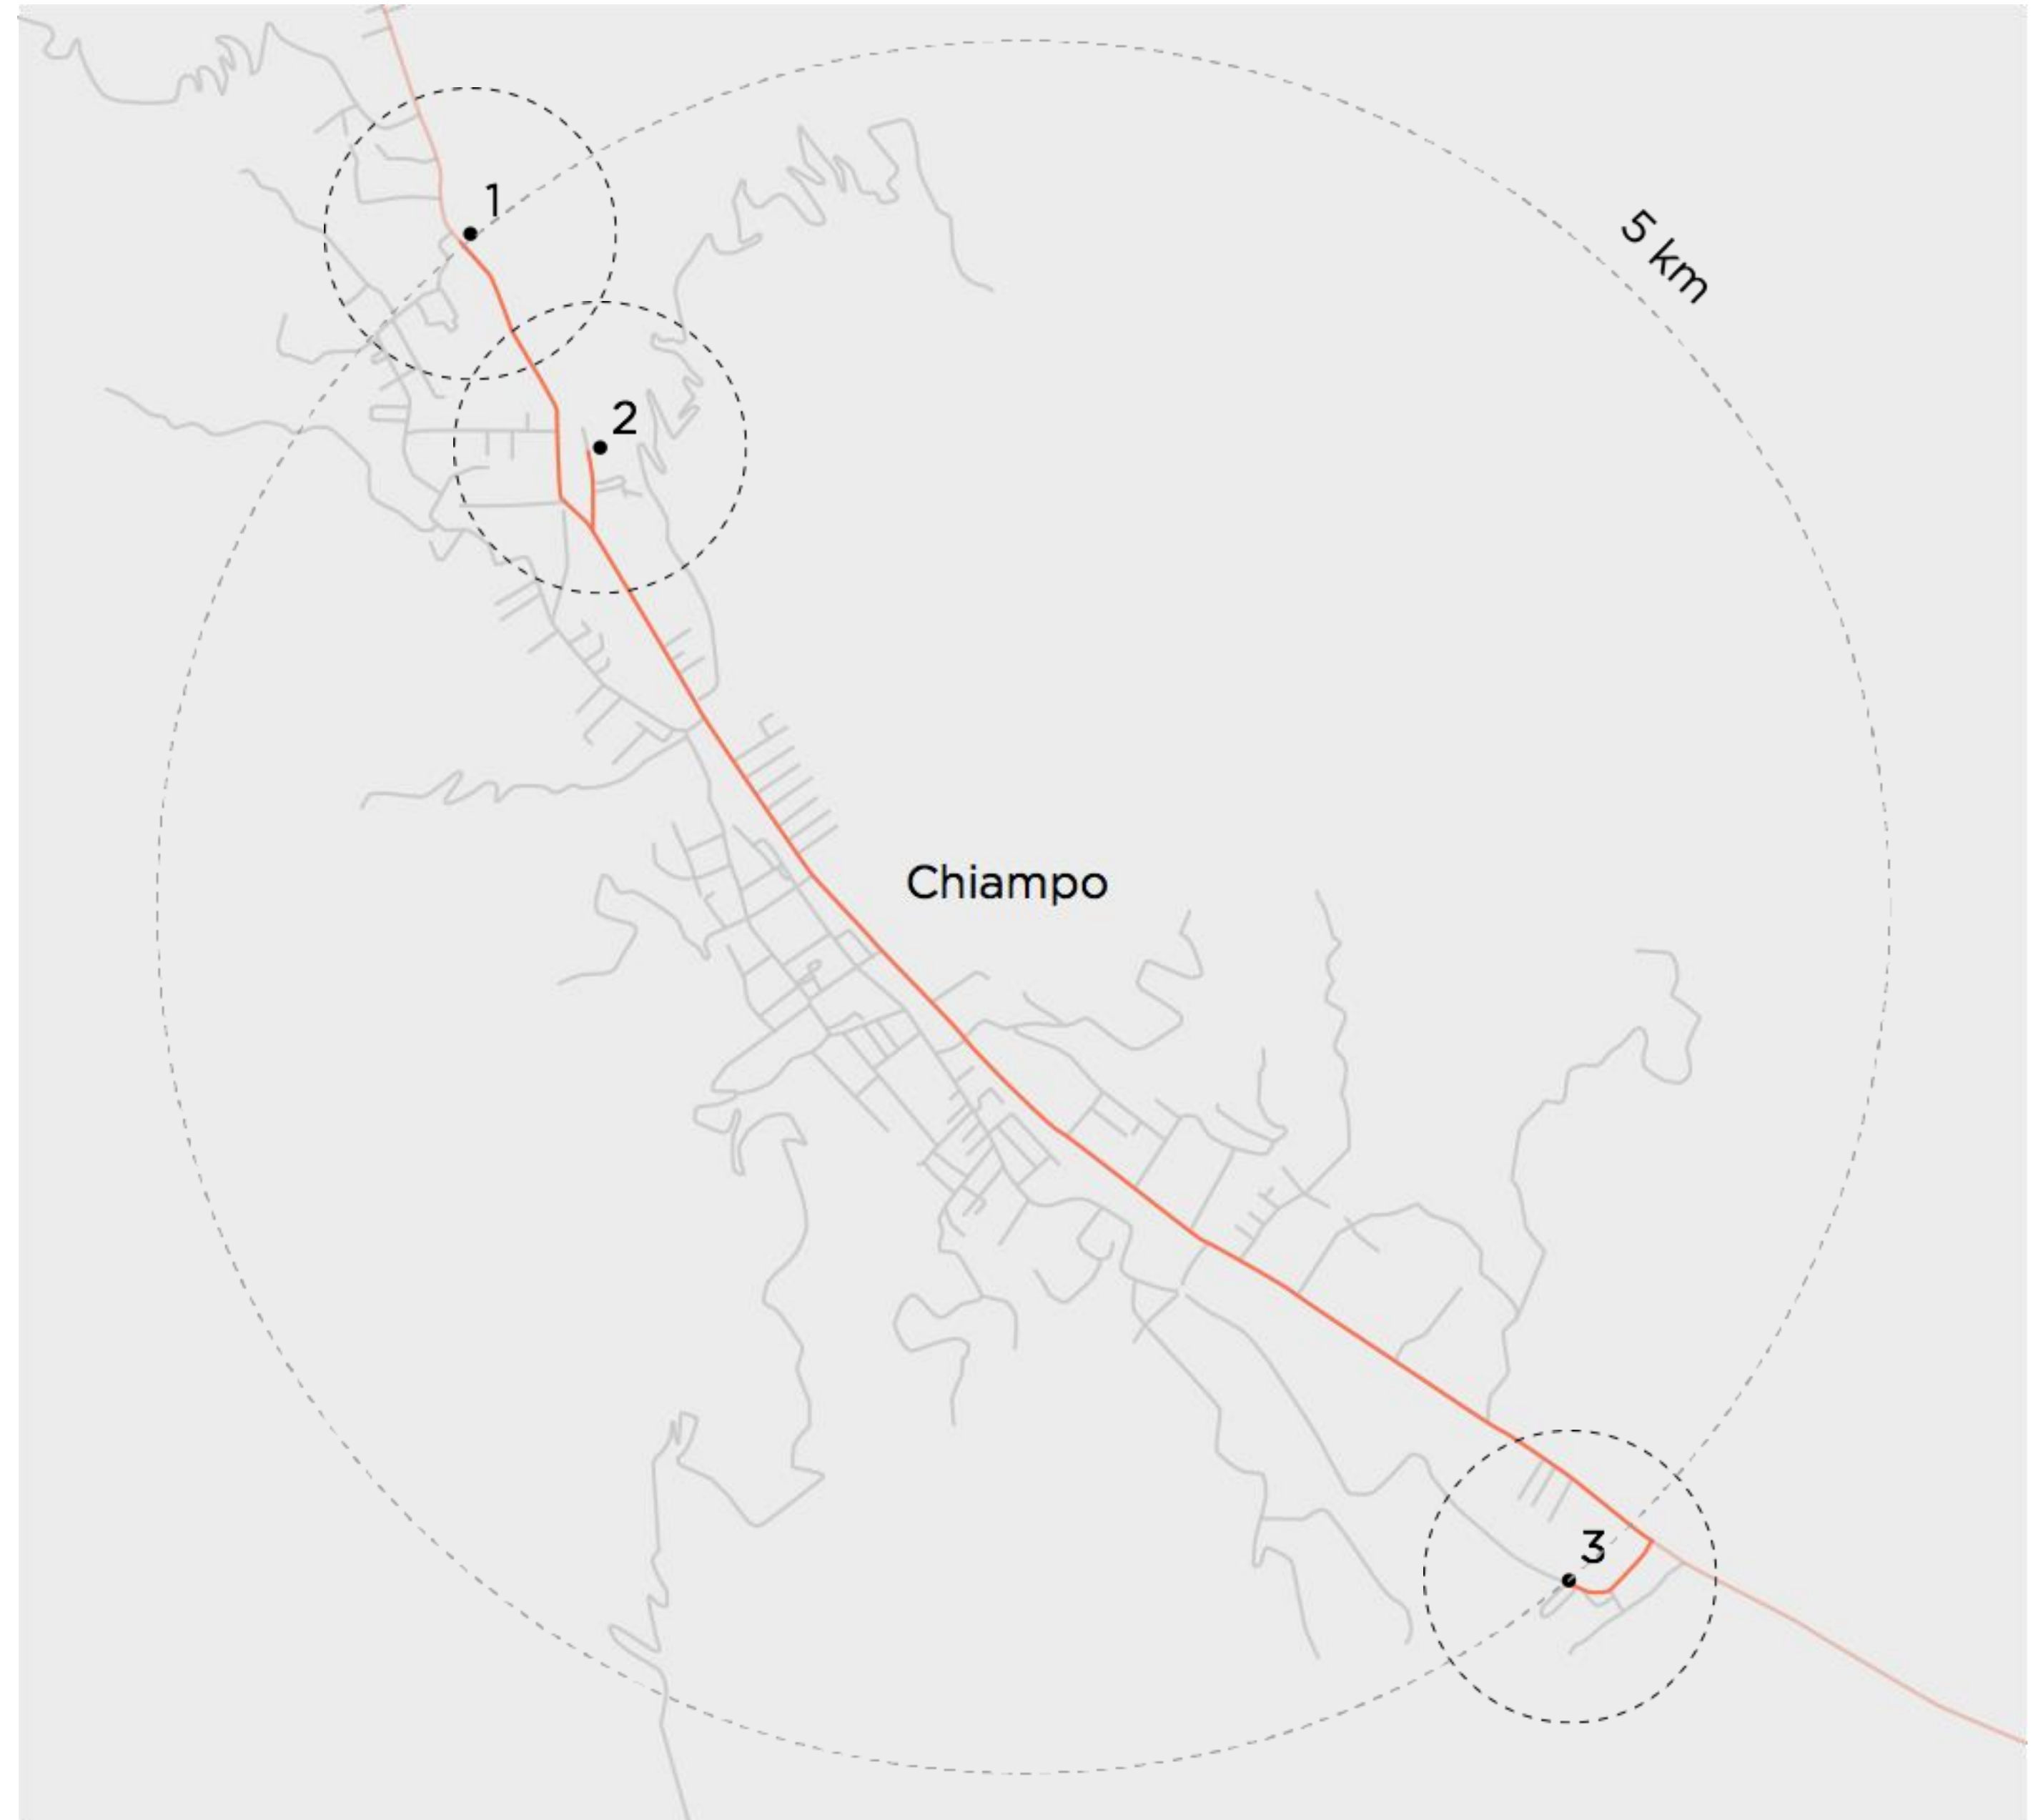

Made in Italy

# Our products are entirely made in Italy

Our headquarters based in Chiampo, in the province of Vicenza, has three production plants, two logistics platforms, sales departments and various storage warehouses.

But "Made in Italy" is not only a geographical aspect. It is a guarantee that everything we make is based on researching beautiful quality products, made to improve people's lives.

# Reliability and versatility

**Our products meet various needs: modular and extendable, they can also be used to furnish interiors.**

**Our customers can request direct and constant assistance, from the time of delivery to after-sales customer care.**

The Nardi brand

Our brand is becoming increasingly acknowledged worldwide as an ambassador of Italian design and quality.

People

# We have a people-focused approach

**When we choose to work with someone, that choice is based on the person's professional skills, reliability and human talents.**
